Win a Free Icepack and strap by downloading and completing this easy quiz. This offer is available to all new, returning and current patients of Dr. Borman and Associates P.C. when presented during a scheduled 40 minute treatment appointment.

Question 1: (True) or (False), All Chiropractors use the same adjusting techniques.

Question 2: (True) or (False), At Dr. Borman and Associates we use a slow gentle stretching technique to adjust spinal problems rather than the traditional thrusting technique that is used in most other offices.

Question 3: We use this style of adjusting because it: (A) is less scary for the patient (B) is very effective (C) heals problems with fewer complications (D) is capable of working on very difficult - long standing or very acute - problems. (E) is safe when used on extremely fragile - osteoporosis, arthritis, post surgical - patients. (F) All of the above

Question 4: Dr. Borman and Associates uses ultrasound each treatment in conjunction with their gentle adjusting technique because it: (A) it quickly reduces pain (B) it reduces swelling (C) it reduces muscle spasm (D) it speeds healing of the injured area (E) it helps the body hold the adjustment better (F) All of the above

Question 5: (True) or (False), Dr. Borman and Associates works in an active partnership with all their patients in order to speed healing and to help the patient remain healthy over the coming years.

Question 6: Which of the following techniques are used routinely by patients at Dr. Borman and Associates as a way to actively play a role in their own healing: (A) icing the inflamed areas (B) daily walks (C) using specific positions that avoid reinjury (D) using specific positions that ingrain new healthy positioning patterns (E) individually prescribed stretches (F) All of the above

Question 7: The slow gentle stretching technique, use of ultrasound and attention to detail demand how much direct doctor/patient contact each treatment session? (A) 5 -10 minutes (B) 10-20 minutes (C) 20- 40 minutes

Question 8: (True) or (False), The doctors at Dr. Borman and Associates respect you and the value of your time by always running on time and never double booking.

Question 9: (True) or (False), Our offices are conveniently located just off I-25 and South Colorado Boulevard in the heart of the greater Denver metro area, usually less than 20 minutes from where you are.

Question 10: (True) or (False), If you have not tried the unique and effective therapy available at Dr. Borman and Associates (no matter how much you have tried elsewhere or how frustrated you have become) there is still hope for a return to a full, active, pain-free and balanced life.

Limits: One per patient with a 40 minute appointment.

LIFE IN BALANCE
